

# Association of PhD Students and Young Doctors of Institut Curie

“ADIC was established in 1997 and it is officially supported by the Institut Curie”

- Represent PhD students and Post-Docs of the Institut Curie working in all disciplines in Paris, Orsay and Saint-Cloud.
- Strengthen the participation of young researchers in the scientific life at the Institut Curie.
- Support the integration into a professional career at the Institut Curie.
- Improving the work environment of PhD students

## INTERNAL CONFERENCES

### Re-Si-Pi & Ratatouille Seminars

Re-Si-Pi Seminars (at Orsay) and Ratatouille Seminars (at Paris) aim to provide a platform for M2 students, PhDs, Post-Docs willing to present their work in an informal manner, to learn about the projects being carried out in the institute and to encourage the interaction between the different labs.

It takes place monthly, with one or two presentations per session for which pizza is provided for lunch. Regularly, external speakers are invited on various topics.

## SCIENTIFIC RETREAT

### Young Scientists Retreat

Together with another European research institution, ADIC organizes every year a joint retreat, open for students, Post-Docs and engineers of Institut Curie.

Supported by the Training Unit, the purpose of this retreat, is to get together in a nice and friendly environment for networking with other young scientists, discussing science and participating in career workshops.

## Petits-déjeuners professionnels

"Petits-déjeuners professionnels" give you the opportunity to meet and talk to doctors willing to share their professional experience after their PhD, while having breakfast together.

This event is co-organized by the ADIC and 4 other associations : Adelih, BioDocs, DocUP and JeCCo.

## MULTI-ASSOCIATION ORGANIZED EVENTS

## YRLS Conferences

As a member of the YRLS Federation, ADIC helps every year organize the YRLS conferences.

This event aims to provide young researchers with a favorable scientific environment for discussion and presentation. In a friendly atmosphere among their colleagues, master students, PhD students, and Post-Docs can present their work, exchange ideas, ask questions and build a network.

## SOCIAL EVENTS

### Happy Friday & Parties

Several Aperos and Parties are organized every year.

They take place at both Paris and Orsay research centers and they are a great opportunity to meet colleagues from Paris, Orsay and Saint-Cloud.

## FRENCH CLASSES

### French Classes

Together with Curie's Training Unit, ADIC organizes every year French language courses for PhD students and Post-Docs willing to learn French or improve their French level.

It starts with an Intensive week training (4h per day) followed by evening classes (2h per week).
