

The first edition of Re)Si-Pi started at April 20<sup>th</sup>, 2015 and ended on July 6<sup>th</sup>, 2015 and took place at Curie Institute (building 111, Orsay).

For this very first season three sessions, with various topics, has been organized thanks to the participation of : Master, PhD students and Post-Docs from Curie Institute.

We had also the honor of welcoming an external guest for a special ReSiPi session : Dr Heinz, Professor at NIH, Bethesda (USA). He presented his point of view as a journal editor on « How to publish a scientific paper”.

Up to 20 persons attended each ReSiPi session, interacted with the speaker and enjoyed pizza for lunch.
